

# Three-Module Back to School Music at Home Assignments

Teachers and students across the nation are preparing for a new school year unlike any before. As we plan for unique challenges, we recognize that in-person class time may be limited. QuaverMusic is providing 18 Music at Home assignments for grades K-5 to support this new learning environment.

Each assignment covers one topic based on the QuaverMusic curriculum. Students will interact with Quaver's engaging resources by playing and singing along with music, listening to and watching performances from the curriculum, and even creating and performing in their own music videos.

Lesson topics include beat, rhythm, melody, singing, and meter, covering the first three modules of the curriculum. Each assignment includes at least one graded portion that is sent directly to you.

We hope that these Music at Home Assignments provide direction and clarity in these uncertain times. No matter what the structure of class may be, your students can still love exploring and creating music.

Grade Level	Module 1	Module 2	Module 3
KINDERGARTEN	Steady Beat	Four Types of Voices	Beginning Rhythm
