Schedule of Data

QuaverEd safeguards all sensitive data the district shares with us, especially Personally Identifiable Information (PII).

- We comply with FERPA, COPPA, and other federal and state laws protecting PII
- All data is encrypted in place in a firewalled database
- Files and information are transferred securely using HTTPS and SFTP
- PII is destroyed according to industry best practices when no longer in use
- Our servers and data storage devices are all located in the United States
- We do not use PII to market to any individual, or disclose that data to any third party groups
- Quaver has never had a contract terminated for failure to comply with data security requirements.

All users on our site agree to QuaverEd's Privacy Policy. For districts that request data integrations, we require that a Data Sharing Agreement be in place. We will contact you to put this in place.

Types of Data QuaverEd Collects

QuaverEd collects limited personally-identifiable information to best accommodate teacher and student use of our resources. Depending on the product configuration required, the information gathered may vary. The following pieces of data are required by QuaverEd or are commonly collected.
