### Getting Started with QuaverReady!

Once logged in, you'll be taken to your **Teacher Dashboard**—your one-stop-shop for all of your QuaverReady Resources! The Dashboard can be broken down into two categories: **Tools** and **Teaching Resources**.

**Tools** — The top of the Dashboard contains tools that will help you customize and organize your teaching resources.

**Teaching Resources** — The bottom half of the Dashboard includes ready-to-launch resources and additional information to support your instruction.

## Here are two easy ways to get started from your Teacher Dashboard:

### 1 • Explore a Complete Lesson

Click the **LESSONS** icon to open a menu of QuaverReady lessons organized by grade level or CASEL Competency.

Click any grade level or competency for a sub-collection of lessons, then click the lesson to launch a lesson summary screen.

Use the **Overview** buttons to explore the lesson's objectives, **Lesson Plan** to print a lesson plan, and **Worksheets** to print any available worksheets. Then click **Launch** to open the lesson and try it with your students.

Each Lesson is designed to last between 30–45 minutes, or you can tackle a single activity in the lesson in just 5–10.

### 2 • Search for a Single Activity

Back on your Dashboard, click the **RESOURCE MANAGER** icon to use the Topic Index to search with a specific standard, concept or goal in mind, and organize the resulting Quaver resources into folders or custom lessons for easy access throughout the year.
