

# Welcome, Reviewers!

QuaverReady offers an innovative approach to social and emotional learning. QuaverReady focuses on the needs of Pre-K–5 students and the teachers and counselors who support them. All lessons (36 per grade levels K–5 and 22 in Pre-K) are aligned to CASEL competencies. The platform is engaging, interactive, and designed to help students succeed in school and in life. QuaverEd supports most district log-in options. Whether your school uses SSO, Auto-Registration, or a log-in on our website, we make it easy. Check out our Log-In page for more information.

## How to Access QuaverReady

## Getting Started with QuaverReady

Once logged in, you'll be taken to your dashboard. It's your one-stop shop for all your QuaverReady resources! The dashboard can be broken down into two categories: **Support Tools** and **Instructional Resources**.

- **Support Tools:** The top of the dashboard contains tools that will help you organize your teaching resources.
- **Instructional Resources:** The bottom of the dashboard includes ready-to-launch resources and information to support your instruction.

## Two Easy Ways to Get Started from Your Dashboard

### 1. Explore a Complete Lesson

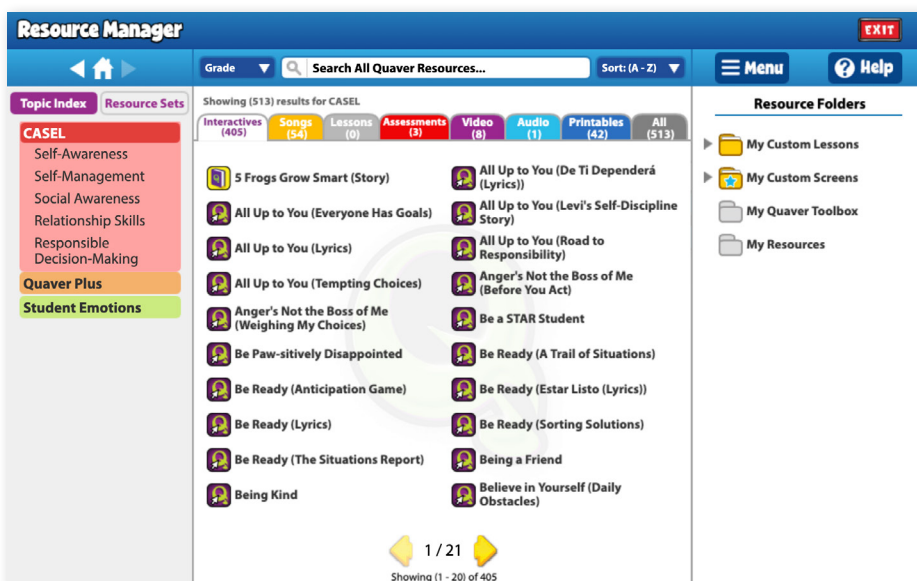

Choose the **Lessons** icon to open a menu of QuaverReady lessons organized by lesson or CASEL competency. Click any grade level for a sub-collection of lessons. Then choose the lesson to launch a Lesson Summary Screen. Use the colorful buttons to explore the lesson's **Overview** or to print a **Lesson Plan** or any available **Worksheets**. Then click **Launch** to open the lesson in a new tab and try it with your students.

Each lesson is designed to last 30–45 minutes. Or you can tackle a single activity in the lesson in just 5–10 minutes.

### 2. Search for a Single Activity

From your dashboard, click the **Resource Manager** icon. Use the Topic Index to search with a specific standard, concept, or goal in mind. Organize the resulting QuaverReady resources into folders or custom lessons for easy access throughout the year.
